

Alberi per tensionamento
Spinta/Trazione

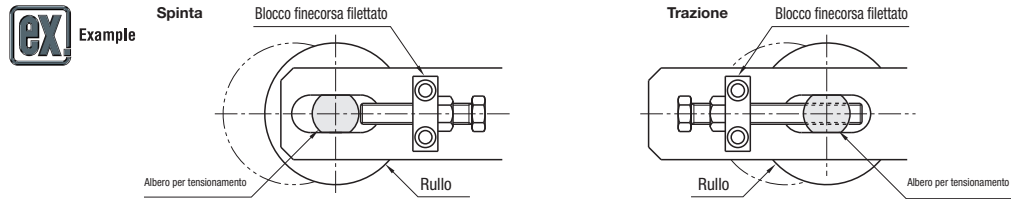

Technical specifications and diagrams for Spinta and Trazione components. Includes a table for Tipo, Tolleranza, Materiale, and Trattamento superficie. Also includes a table for Tolleranze L, Y e T and dimension diagrams for both types.

Table with 8 columns: Tipo, D h9, L, F, T, M (Grossa), W, (Y) max. It lists various component types and their dimensions.

L+2F≤(Y)

Ordering Example section showing how to construct a part number from the component code, dimensions, and material.

Large tables for Spinta and Trazione components, showing dimensions (D, L, F, T) for various types (SFMRPS, PSFMRPS, SSFMRPS) and their corresponding tolerances.

Alterations section showing how to modify the component code for different materials or finishes (FC, WFC, SC, etc.).

Table detailing the variants and specifications for the components, including the 'Sede vite di fermo', 'Sedi chiave', and 'Gola per anello di sicurezza'.
